DETAILED ACTION

Election/Restrictions

1. Based on Applicant's telephone call and upon further review by the examiner, the restriction requirement of September 1, 2004 has been withdrawn. Subsequently, a new restriction requirement is set forth in this Office action. This was conveyed to Linda A. Fox during a telephone conversation on September 9, 2004.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species I: Figures 1 and 2;
- Species II: Figure 3;
- Species III: Figure 4;
- Species IV: Figure 5;
- Species V: Figure 6;
- Species VI: Figures 7 and 26;
- Species VII: Figures 8 and 26;
- Species VIII: Figures 9 and 26;
- Species IX: Figures 10 and 26;
- Species X: Figures 11 and 26;
- Species XI: Figures 12 and 26;
- Species XII: Figure 13;
- Species XIII: Figure 14;
- Species XIV: Figure 15;
- Species XV: Figure 16;
- Species XVI: Figure 17;
- Species XVII: Figure 18;
- Species XVIII: Figure 19;
- Species XIX: Figure 20;
- Species XX: Figure 21;
- Species XXI: Figure 22;
- Species XXII: Figure 23;
- Species XXIII: Figures 24 and 25;
- Species XXIV: Figures 24 and 25a;
- Species XXV: Figures 24 and 25b;
- Species XXVI: Figure 24a;
- Species XXVII: Figure 27; and
- Species XXVIII: Figure 28.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon (as well as any claims drawn to the method of using the elected species), including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Andrea M. Ragonese** whose telephone number is **703-306-4055**. The examiner can normally be reached on Monday through Friday from 8 am until 4:30 pm.
